SOFTWARE DEVELOPER

Noah Anleitner

Software development for a living and for the fun of it, and tuning my car when I am not coding.

DAY JOB

Work

Dominikus-Ringeisen-Werk

Where I work: software development for a social care provider.

2022 -

drw.de (https://drw.de) **Organisation** (https://github.com/Dominikus-Ringeisen-Werk)

Work account (https://github.com/DRW-NoahAnleitner)

DORINO

NOT PUBLIC YET

A barrier-free information system for social institutions: a tiled touch interface, read aloud on request, carrying dashboard, news, weather, calendar, documents, maps and media. Built for homes for people with disabilities, senior homes, day-care centres and schools.

One of its main developers at the DRW, which builds it together with SONNTAG IT Solutions, who sell it.

BUILT IN MY OWN TIME

Projects

halogenOS

A cutting-edge Android ROM: simple, smooth and fast.

Maintainer of Nothing Phone (2) and OnePlus 7 Pro

2021 -

git.halogenos.org (https://git.halogenos.org/) **halogenos.org** (https://halogenos.org)

halogenOS Discordbot NO LONGER MAINTAINED

A Discord bot in Kotlin for the halogenOS team.

Discontinued. The sources stay online for reference.

2022 - 2026

GitHub (https://github.com/halogenOS/halogenos.discordbot)

NixOS Configuration

My own machines, declared: the stable channel, foundrix, Gnome, COSMIC and Hyprland.

2025 -

GitHub (https://github.com/N0m4n904/nixos-config)

Max.Storage Ultimate

A Home Assistant integration for the MaxStorage home battery. Live photovoltaic, battery and grid readings, MPPT strings discovered as it finds them, and relay states, so surplus energy can drive automations.

Python, installable through HACS. A heavily extended fork of geeks-r-us.

2024 -

GitHub (https://github.com/N0m4n904/maxstorage_ultimate)

Smart Cursor

A pointer for the web: a glowing dot and a ring that morphs onto whatever it hovers, yielding to a caret over text. Two files, no build step, no dependencies.

It is what is drawing your pointer on this page.

2026 -

GitHub (https://github.com/N0m4n904/smartcursor)

Website

This website is itself one of my projects. It is a personal portfolio designed to showcase my projects, experiments and ideas in an interactive and minimal way.

You are looking at the project right now.
